

FROM PROFESSIONALS, FOR PROFESSIONALS.

Robust, manoeuvrable and economical: for practically any short-radius distribution need.

Mercedes-Benz
Trucks you can trust

THE ATEGO.

Made for short-radius distribution: its versatile configuration options make it a reliable partner for your requirements. It also offers the usual Mercedes-Benz Trucks quality and innovation regarding driving comfort, efficient technology and safety.

An expert economiser

The Atego makes you economical across the board. It boasts low fuel consumption, thus reducing your total costs. The economical and reliable Euro VI engine and the standard PowerShift Advanced automatic gear shift support a confident and foresighted driving style.

Engine

The Atego's Euro VI engines specially designed for short-radius distribution deliver output of up to 220 kW (299 hp) and maximum torque of 1,200 Nm. With a choice of seven different Euro VI engines, each of which can be combined with a wide array of manual and automatic transmissions, the Atego offers precise adaptation to your specific requirements.

Cab

The cab in the Atego boasts an interior which is both high-quality and functional. The carefully conceived stowage concept results in order and clarity in the cab, while the interior design creates a pleasant work atmosphere. You can choose between the Classic Cockpit, the Comfort Cockpit and the standard cockpit, each with ergonomic fittings and practical details such as cup holders, power sockets and storage compartments. The air-sprung seats offer optimum seat comfort and are available in a variety of designs ranging from standard to climatized. In addition, the radio infotainment system provides entertainment and information while you drive. Another highlight is the reversing camera that allows you to see the area behind the vehicle, for added clarity.

THE ATEGO.

The right truck for the job

Be it for food retail or landscaping, the Atego is versatile in its use and can be configured for a wide variety of different sectors. With its compact design, small turning circle and many different configurations, it will live up to your requirements – wherever you are going.

Service included

We help you keep your Atego where it earns money – on the road. With tailored service agreements, a dense network of repair shops and Mercedes-Benz Trucks Service24h, which is available around the clock. Our optional Mercedes-Benz Trucks Complete service package includes maintenance, checks, repairs, the replacement of wear parts and much more besides – throughout the truck's life cycle. In the area of vehicle management, you are assisted by add-on digital services such as Mercedes-Benz Trucks Uptime, Fleetboard, TruckLive and the My TruckPoint for Mercedes-Benz Trucks customer portal. And Daimler Truck Financial Services offers bespoke financial services for both vehicle usage and vehicle ownership.

THE ATEGO.

Attentive on-board aids

Get safely under way – with the innovative assistance systems¹ from Mercedes-Benz Trucks in the Atego. The holistic safety concept not only conforms to all statutory regulations and standards but also goes beyond these with several of its functions. The latest version of Active Brake Assist can recognise hazards and critical situations better than ever before and react with clear warning signals or even initiate an automatic emergency stop. Active Sideguard Assist 2 is also there for drivers when it comes to turning off to the right. In critical situations such as when pedestrians are crossing, it can intervene by braking the vehicle. This together with the new Front Guard Assist contributes to greater safety, clarity and comfort in short-radius distribution, which can be hectic.

¹ Assistance systems can only support drivers. The driver is always fully responsible for driving the vehicle safely.
