MIRRORCAM – perfect distance estimation

Distance lines in the display on the A column contribute to improved estimates of traffic proceeding from the rear.
MIRRORCAM – improved view of trailer

When taking bends, the image on the display follows the movement and thus provides an optimal view of the entire trailer.

If Sideguard Assist is installed, the MirrorCam display shows the warnings generated by this system.
MIRRORCAM – reversing up to a ramp

When reversing, MirrorCam optimises the view of the entire trailer.
